ROMCO Power Systems can rebuild any make or model of diesel engine to your specifications. Start by choosing from the basic packages, Blue, Red and Gold. You can further specialize the rebuild by adding or removing options until you get exactly the service you need.

OPTIONS FOR ALL PACKAGES:

- Rebuilt starter installation
- Rebuilt alternator installation

Note: Additional 3 months and 300 hours of warranty is added to each package when your engine is installed by a ROMCO service department.
